# About Me

## About Me

Hi! My name is Benjamin and I like dabbling in the arts, especially video editing and creative coding. In the past, I've worked on directing groups of 20+ for small video shoots as well as making some pixel art.

# A Neat Trick

```
<div class="hero">
  
  <article class="inside">
    <h2>Benjamin Evelson</h2>
    <p>Web Portfolio</p>
    <a href="#work">My Work</a>
  </article>
</div>

<!-- Gallery w/ Links to Each Type of Work I've Done -->
<h2 class="aboveWork">My Work</h2>
<div class="container" id="work">
  <div class="thumb">
    
    <article class="mask">
      <h2>My Code</h2>
      <p>Examples of Visual Code I Have Created</p>
      <a class="info" href="./MyCode.html">View More</a>
    </article>
  </div>
```

```
* {
  box-sizing: border-box;
  scroll-behavior: smooth;
}
```

# Next Steps

- **Flesh out actual content of portfolio**
- **Decide on embedding p5.js or just making the page with a javascript stylesheet**

- **Actually use javascript**
- **Test fade on scroll**
- **Figure out why media queries break half the time**
